

THE ESTATES TANGLEWOOD LAKES

HOME COLOR CHART

2024

NOTE: When you are planning to paint your home – the same colors or to make a change – you must submit an architectural request to the property management company for the Architectural Committee's consideration.

If you have submitted anything outside of the book examples and the Architectural Committee cannot agree, the request will be presented to the Board of Directors. In either situation **you must submit color swatches**. Always keep in mind that your roof color is the determining factor in the choice of colors for your home's exterior walls, trim, accent, fence and driveway. If approval is given, the colors proposed must be used, with NO variations.

This book contains the approved colors for exterior walls, trim, and accent from Sherwin Williams. Included are the approved colors for Fences and Driveways. Fence and driveway colors are standard colors from PPG, Behr, Benjamin Moore and Valspar. All paints and stains can be bought from any dealer who can mix the appropriate color.
